REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the apparatus as claimed in claim 6, specifically, a supply of a coating precursor; first means for conducting said coating precursor from said supply to said reaction vessel, said first means entering said reaction vessel at said bottom of said vessel at a position above the porous disc; a supply of a co-reactant; and a second means for conducting said co-reactant from said supply to said reaction vessel, said second means entering said reaction vessel at a position substantially mid-way of said given height was not found in or suggested by the art.

The closest art is Gingerich et al, US Patent 6,171,650 B1, which teaches a first precursor supplied to a position above the porous disc, and a co-reactant supplied below the porous disc. This differs from the present invention in that the co-reactant is supplied substantially mid-way of the height of the reactor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrie R. Lund whose telephone number is (571) 272-1437. The examiner can normally be reached on Monday-Thursday (6:30 a.m.-6:00pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Parviz Hassanzadeh can be reached on (571) 272-1435. The fax phone.
